

# What are your goals?

*"If you want to live a happy life, tie it to a goal." - Albert Einstein*

*"Success is the progressive realization of predetermined, worthwhile, personal goals." - Paul Meyer*

*"Goals that are not written down are just wishes." - Henry Ford*

Take a moment and ask yourself: What are your goals? What are your dreams? What are your current hopes for the future (large and small)? Now, write them down. Start with **short** term goals, things you want to do/see/own/accomplish this year. Then move onto larger long term goals.

# What is your plan?

“You need a plan to build a house. To build a life, it's even more important to have a plan.” - Zig Ziglar  
 “Always have a plan, and believe in it. Nothing worthwhile happens by accident.” - Knox, Chuck  
 “If you don't have a plan for yourself, you'll be part of someone else's.” - American Proverb quotes

Take a moment and ask yourself: What careers interest you? Why? Remember, a career is NOT the same thing as a job. Dishwashing is a job. Wash dishes for 5 years and you are qualified to wash dishes. Legal-Assistant is a career. Work as a legal assistant for 5 years and you should be qualified to do bigger and better things (and receive a raise). A CAREER is a JOB with a FUTURE!

Now, write down the names of at least **3** careers that interest you. Why 3? Most people will have more than one job or career in their lifetime.

<u>Career</u>	<u>Requirements</u>	<u>Compensation</u>	<u>Lifespan</u>	<u>Why I might choose this.</u>
<i>Example: Carpenter/ (Housing Construction)</i>	<i>High School Degree, 2-4 years apprentice work for most union jobs.</i>	<i>Union rate for a 4 year apprentice/ journeymen is about \$24/ hr.</i>	<i>This is hard physical labor. Avoiding injury, 30-40 years depending on when you start.</i>	<i>Like working with your hands.</i>
